- Project and Team Leadership
- Strategic Solution Development
- Adaptive Learning
- Flexible and adaptable
- Multitasking Abilities.

ABOUT ME

Detail-oriented professional with good communication and project management skills. Proven ability to handle multiple tasks effectively and efficiently in fast-paced environments. Proactive approach to identifying and addressing issues, recognized for optimizing processes and supporting team objectives.

PROJECT

- Pet Management System, Developed a system to help pet owners track health records and schedules using React.js and PostgreSQL.
- Library Management System, Built a system to manage books and track borrowing history using Java and MongoDB.
- AI Personal Assistant - Developed a Python-based AI assistant to automate tasks across multiple devices, including a phone, tablet, and laptop. Integrated features like voice commands, task scheduling, and personalized recommendations. Designed for productivity enhancement and seamless cross-device functionality.

RESEARCH PAPERS PUBLICATIONS

Pet Management System, Conducted research and published a paper on the impact of technology in managing pet health and records efficiently.
